

62 1963 Da

MILLER DAHLIA FARM

"The Highest Quality Dahlia Roots Obtainable"

MAXINE AND LYNN MURRAY, OWNERS

Box 27 • Kingston, Washington

DESCRIPTIONS

Following the name of each larger variety here, the classification is first given. Next the key letter (A-B) to give the general size of bloom. Last the general height of bush.

T—Tall **M**—Medium **S**—Short

Key letter following classification . . .

“A” (or large) over 8 inches in diameter.

“B” (or medium) 4 to 8 inches in diameter.

“M” (or miniature) under 4 inches.

Special culture will increase the size of blooms, but these are average sizes.

CLASSIFICATIONS

- FD**—Formal Decorative. Fully double flowers, uniform broad petals either pointed or rounded at tips.
- ID**—Informal Decorative. Fully double flowers with margins of floral rays slightly or not at all revolute. Generally petals irregularly placed.
- SC**—Semi-Cactus. As name suggests, petals revolute for less than half length.
- STC**—Straight Cactus. Petals straight and revolute for half or more.
- IC**—Incurved Cactus. Fully double flowers with margins of petals revolute for half or more of length, tips curving toward center.
- BALL**—Fully double. Ball-shaped.
- SINGLE**—One row of petals with a definite disc in center.
- COL**—Collarette. Like a single, but has a tiny row of petaloids around center like a small collar.
- ANEMONE**—Open-centered flower, with the tubular disc florets elongated, to form a pincushion. One row of petals around quilled cushion.
- MIGNON**—Single dahlias, approximately 18 inches in height.
- PEONY**—Open-centered flowers with two to five rows of ray florets with or without the addition of small floral rays around disc.
- DWARF**—Term that applies to plant height without regard to bloom size.
- ORCHID**—Flowers like single dahlias excepting that the rays are more or less tubular by the involution of the margin.
- WATERLILY**—Popular name for some FD which resemble waterlily shape.

New Introductions for 1963

DINO (Catherine Miller) — Ball--BB-M) — Light blend. White with rose-pink deep at base of petals. Long stems. Scored 86.2 at Pacific Northwest Trial Garden. Highest score in garden for 1962. Can be grown to medium B size.....NET 7.00

NET 7.00

MELIKE (Catherine Miller)—(SC A S)—Rose-red. Low growing long laterals. Scored 81.0 at Pacific Northwest Trial Gardens.NET 7.00

Spring 1963

Large Decorative and Cactus Varieties

These all have good stems, some longer than others, but all strong enough to hold their flowers well. The STC, IC, SC are all good cut flowers. The smaller sizes in FD and ID cut well also. Extra-large dahlias in FD and ID are usually grown for show and garden displays only.

ADVANCEMENT —(STC B T)—Rose-pink shading to creamy white. Split tips.	.75

GUARANTEE

Each root sent out is carefully inspected for soundness and eyes. They are guaranteed to be free of disease and to have one or more live eyes or sprouts, and to be true to name. In remote cases of a variety being untrue to name, a replacement will be made the following spring. Some varieties are slower to sprout than others so give them a chance to sprout. No further obligation than the amount paid is assumed under this guarantee.

SPECIAL COLLECTIONS

THESE ARE OUR CHOICE. Each one labeled, helps take care of our spring surplus. Use letters to order. No discount on specials.
